**AGENDA ITEM SUMMARY**

---

**Subject: Consider Quotes to replace Traffic Control box for lights at the intersection of Gilbert Street and Main Street**

---

Our traffic control box that operates the traffic lights at the intersection of Gilbert and Main by the courthouse continue to give us issues and the control box needs to be replaced. We had budgeted funds to replace the traffic light control box at the N. Grand /4<sup>th</sup> Ave. intersection but due to the upcoming IDOT project slated for that area in 2021 we thought we could use those funds for this project instead.

Attached are quotes for replacing the control box with a new set up that would be compatible for future traffic signal solutions including the use of fiber optics. Additionally it would accommodate the use of a single camera that would operate the lights rather than working on a timer as it does currently.

We recommend the council approve the quote from General Traffic Controls for \$17,835.
