Discussion on securing depredation tags for Wildwood golf course for this fall. Park and rec director Tyler Mitchell stated he had been working with Ross from the DNR on this process. We have to experience at least \$1000 damage to the course and after seeing the pictures from last year, Ross agreed we qualified. Mitchell had received feedback from the hunters who hunted Wildwood last year and was told that if they had a separate depredation tag and didn't have to use their own tag from the state, they would have taken a deer rather than save their tag. Mitchell is considering 4 to 6 tags for this coming fall and will do the same time frame and process as last year. The depredation tags will only be good at Wildwood so that will hopefully encourage hunters to take a deer if able. The application for depredation tags needs to be submitted to the state by May 1. Motion by Starr, second Freeseaman to approve applying for depredation tags for Wildwood golf course only. Ayes - 5

Bob Ingram from Sisson and Associates was present remotely to discuss the city's insurance renewal. The overall renewal increased \$36,206 from last year partly due to adding some more buildings and increases in workman's comp. The total premium is \$380,901. Question on our cyber coverage, are we in good shape with what we have. Ingram replied yes, we have a million dollars of coverage. He also stated that the city's linebacker coverage will encompass the newly formed telecom board of trustees as well as general liability coverage. For future, any extra insurance costs will be split out and covered by the telecom. Motion by Freeseaman, second Pittman to approve the insurance renewal with Sisson and Associates. Ayes - 5

City staff has encountered an issue with a large sanitary sewer main that runs diagonally between Fourth and Fifth Avenues. A manhole near C Street needed removal and during the course of doing that, the main was found to need corrective work to avoid collapse. Upon further inspection, it was determined that this main could be lined to solve the problem. Since it is a larger pipe, there are a couple of manholes that need to be removed and replaced in order to get the larger sized lining into the pipe. Due to the larger pipe, the volume of flow and the need to keep the highway closed to traffic flow, staff considers this an emergency repair. City attorney Slotter's opinion is that this does qualify for emergency repairs under Iowa code so staff has received a quote of from VisuSewer for approximately \$225,000 for the lining and a quote from Popp Excavating of approximately \$153,000 for removal and reconstruction of the two manholes. Council member Freeseaman asked if we should just reroute this sewer main and eliminate this diagonal? City engineer Fallis replied that there isn't enough fall here so if we tried to re-route this, it would have to be dug very deep to get the fall. There will be about 650 feet that will be lined. Fallis is confident that this lining will greatly extend the life of this sewer main. Council member Knighten asked what the timeline is for this project and reply was it will take 2-3 weeks to get materials so looking at first part of May. Council member Freeseaman introduced Resolution 68-20 entitled, "RESOLUTION AUTHORIZING EMERGENCY REPAIRS OF A PUBLIC IMPROVEMENT" and moved for adoption. Second to adopt Pittman. Resolution duly passed on roll call vote as follows: Ayes - Starr, Joerger, Freeseaman, Pittman, Knighten. Nays - none.
